ST. ANNE'S CHURCH CHARITY BAZAAR NOVEMBER 25th

The annual charity bazaar in connection with St. Anne's Catholic Church will take place on Wednesday, November 25th. Tombola prize tickets will be on sale in a few days.

Mr. Alex. Moroney is a business visitor to Calgary.

L.O.E. NOTICE

The members of the L.O.E. are requested to meet at the central school on Wednesday morning, November 11th, Armistice Day, at 10.30, for the purpose of decorating the soldiers' graves in the Catholic and Protestant cemeteries. Any friends are welcome to join the ladies on this occasion.

MEMORIAL SERVICES AT UNITED CHURCH SUNDAY

In accordance with the programme set down by the United Church of Canada, Sunday next will be observed throughout the Dominion as Memorial Day, when services to the memory of those who gave their lives in the recent Great War will be held.

Such a service will be held at the local United Church, commencing at 7.30 p.m., when special music will be rendered by the choir and an address appropriate will be delivered by the pastor, the Rev. W. T. Young.

On the Sunday following, services will be held both at 11 a.m. and 7.30 p.m. The morning service will be addressed by the Rev. Dr. J. T. Ferguson, former superintendent of Presbyterian mission work in Alberta. Dr. Ferguson will deal with happenings attendant upon the great consummation of church union in Canada. Dr. Ferguson was present at Toronto, when the congregations of the three great religious denominations—Presbyterians, Methodists and Congregationalists—met ten thousand strong in one of the greatest services in the history of Christendom, and his description of that service will be well worth hearing.

At the evening service, Rev. Mr. Batch, a returned missionary from China and Japan, will speak. Mr. Batch is a very fluent and forceful speaker and has a message that will greatly interest you.

PIE SOCIAL NOVEMBER 13th

A pie social will be held at the United Church on Friday, November 13th, under the auspices of the Blairmore Old Boys' Association, commencing at 8 p.m. sharp. Proceeds in aid of Tuxie work. Every lady in town is expected to supply a pie for this unique occasion and we undertake, for the benefit of would-be purchasers, to say that no bidding will go over 75c and that the auctioneer has kindly agreed to dispense with the amusement and sales tax features.

ANNUAL MEETING OF THE C. N. P. HOCKEY LEAGUE

The annual general meeting of the Crows' Nest Pass Hockey League was held at the Greenhill hotel on Monday afternoon. The following were present: Dr. Leitch, president, Lethbridge; Ed. McDonald, vice-president, Blairmore; L. Turcotte, secretary, Lethbridge; Dr. J. A. Key and Charles R. Ritchie, Bellevue; M. G. Rhynas and W. W. Scott, Blairmore; George Pattinson, Coleman; W. H. Chappell, Blairmore, governor A.A.H.A.

The minutes of the last regular meeting were approved as read. Mr. G. Pattinson, of Coleman, reported that he had no direct authority to represent Coleman at this meeting, but expected that his report of the meeting would stir up hockey interest in Coleman.

A motion was made by Mr. M. G. Rhynas and seconded by Dr. J. A. Key, that the league carry on as heretofore with the same personnel, and after some discussion as to the possibility of Fincher and Macleod coming into the league this year, the motion was adopted.

Considerable time was spent on the question of whether or not the clubs should import players or whether they should endeavor to use the available material now in the respective towns and thereby create a greater interest in the home-brew material, the majority being in favor of the latter, some of the delegates remarking that this was the only way to encourage interest among the teen-age boys who were at present playing juvenile or junior hockey. It was finally decided that the different teams would be allowed to draw on available material outside of their own towns to a limited extent only.

The election of officers for the ensuing year resulted in the same officers as last year being re-elected. Several delegates spoke of the remarkable smoothness of the workings of the league last year and pressed the officers to stand for re-election. The final results were as follows:

Honorary Presidents—L. L. Morgan, Blairmore; Hon. W. A. Buchanan, Lethbridge.

President—Dr. Leitch, Lethbridge. Vice-Presidents—E. McDonald, Blairmore; E. G. Gostick, Bellevue; George Pattinson, Coleman. Secretary-Treasurer—L. Turcotte, Lethbridge.

Executive Committee—One member from each club, the name of such member to be handed in to the secretary not later than December 1st, 1935.

Following the election of officers, Dr. Leitch spoke briefly, thanking the members for their expressed appreciation of his services, stating that he attributed the success of the league to the valuable assistance he had received from the first vice-president, Mr. Ed. McDonald, of Blairmore. The president further stated that he hoped the true interest of sport would be the main object of all the teams and clubs in the league, and not merely the winning of games, particularly when games had to be won in the committee room and not on the ice. He asked the executive to support him in his stand for good clean sport, clean and gentlemanly games and the morale which all true sporting men should endeavor to uphold.

A judicial committee was elected to handle disputes, as follows: Judge Jackson, Lethbridge; Richard Macgavin, Fincher Creek; George Cruickshank, Hillcrest.

The players' residence date was set at the beginning of the 19th, local referees to be used.

L. L. Morgan was elected delegate to the provincial association meeting to be held in Calgary, with instructions to affiliate one senior team representing this league for provincial play-offs.

A lodge of Elks is being instituted at Vulcan today.

FORMER BLAIRMORE CITIZEN IS SERIOUSLY ILL AT COAST

Word was received here by wire on Saturday evening last of the serious illness of Mr. Daniel May, a former resident of Blairmore, now residing at 35 Tenth Avenue East, Vancouver. Following the receipt of the news, his daughter, Mrs. Finlay McLaren, left for Vancouver by Sunday morning's train.

Later advices received state that Mr. May has developed cancer of the stomach and that little hope can be entertained for his recovery.

Mr. and Mrs. May resided for a number of years at the west corner of Ninth Avenue and State Street, and moved to Vancouver a few months ago on account of Mrs. May's health.

MEMORIAL SERVICES ON MONDAY NEXT

On Monday next, Thanksgiving Day, memorial services will be held in the Blairmore Opera House, commencing at 2.45 p.m., under the auspices of the L.O.E., the G.W.V.A. and other organizations.

The children of the public school will assemble at the school grounds at 2 p.m., preparatory to parading to the opera house for this service.

The choir will be occupied by His Worship Mayor McLeod. The various clergy and others will assist in the services. The choirs of the Anglican, Catholic and United churches will mass for the occasion. Elsewhere in this issue will be found the program. Everybody is requested to purchase and wear a poppy.

HOME BANK COMMISSIONER IN BLAIRMORE NEXT WEEK

We have received word from Mr. G. G. Henderson, of Fernie, stating that he will be in Blairmore, at the Cosmopolitan Hotel, on Monday and Tuesday of next week.

All Home Bank depositors having deposits in excess of \$500 (five hundred dollars), are requested to call and see him on these days. This includes those who have already filed claims, as many claims have been returned with a request for further information.

In cases of joint accounts, even where the account was man and wife, the Commissioner has requested that both sign the claim, as disputes have arisen on this point.

C.S.E.T. ON THE AIR

Mr. L. L. Morgan has very kindly consented to set up a large radio instrument in his garage to receive the programme being broadcast from C.F.A.C., Calgary, on Friday, November 6th, between 7 and 8 o'clock p.m. An invitation is extended to all Tuxie and Trail Ranger boys to be present at that hour. Charles E. Hendry, the new secretary of the boys' work for the province of Alberta, and Reg. Houghton, finance minister in the boys' parliament will be the speakers.

On Friday evening last a call of fire was issued from the local hospital. The firemen arrived on the scene to find that their services were not required, the excitement having arisen over some smouldering matter in the basement.

A Brighter Day For Europe

It is a long time that has no turning. For seven long and difficult years Europe has been travelling a rocky road trying to find a way out of the morass of hatred, bigotry, racial discords and suspicions, and the financial wreckage following the conclusion of the Great War. Conference has followed conference, commission after commission has struggled with the problem, but the League of Nations has patiently sought to smooth away difficulties, remove misunderstandings and create a general feeling of confidence, the while supplying checks to unwise and aggressive action calculated to re-open old scores.

Slowly but surely progress was made notwithstanding the fact that the United States refused to join the League or to participate in conferences and commissions, except those which involved questions affecting payments of war debts, in which the United States is vitally interested. And the United States, removed, as it is, from the local prejudice and jealousy of continental Europe, taken a disinterested part in helping to work out European problems, it is safe to say that greater progress would have been made, and the standing of the United States among the nations of the world would have been immeasurably higher today.

Great Britain, however, true to all her great traditions, and notwithstanding her own many and serious domestic problems and crushing war debt, steadfastly planned and worked for the salvation of Europe. (Possibly to a greater extent than ever before has Great Britain demonstrated her world leadership. This may not be fully appreciated as yet, but future historians when they come to record the progress of world events and European reconstruction after the Great War can hardly fail to award credit to whom credit is due.

And at last the turning in the long lane would appear to have been reached in the conclusions unanimously arrived at by the conference recently concluded at Locarno, Switzerland, and effected to which will shortly be given by the signing of six new treaties, and one of which is a document by which Germany, France and Belgium agree to arbitrate all disputes among themselves, with Great Britain and Italy as guarantors. In other words, should Germany break faith, both Great Britain and Italy are automatically arrayed with France and Belgium; should France or Belgium violate the agreement, Great Britain and Italy will support Germany.

Unlike the old Triple Alliance between Germany, Austria-Hungary and Italy, or the alliance between France and Russia, or the Triple Entente between Great Britain and France, which were pledges to go to war in support of each other should certain contingencies arise, this new treaty is one guaranteeing peace and the prevention of war.

The credit for the Locarno conference belongs to the Foreign Secretary of Great Britain, Hon. Austen Chamberlain, who brought it about, and presided over it. His was the directing genius which led to the final removal of all obstacles and brought about this happy culmination which is agreed by all observers and students of international affairs, in which it is entirely new era in European politics.

One of the important results to follow from the Locarno conference and membership in the League of Nations. So long as the great general union of Europe remained outside, the League could not possibly become the dominating factor in Europe and the world which its creators designed it should be. But with Germany in the League of Nations will become reality in an entirely new sense. Many of its greatest difficulties and most serious problems will thereby be removed. It may even pave the way for a changed public opinion in the United States and the ultimate acceptance of the League Covenant by Canada's next door neighbor, a consummation most devoutly to be wished.

Trouble In Far East

Chinese Crisis is Cause of Anxiety to Japanese Government

The London Daily Express correspondent at Tokyo says the Japanese Government is showing great anxiety over the outcome of the recent Chinese crisis, owing to the possibility that it might eventually lead to another Russo-Japanese war.

Should General Wu Pei Fu and his allies drive Chiang Kai-shek from Manchu, the dispatch says, Japan would be faced by the loss of her Manchurian concessions, for which she would fight rather than give up.

One-Dish Dinner

In many families it is a problem to serve up a simple meal on one course, here is a dish for which you will find many ready, besides having the indispensable element of nourishment:

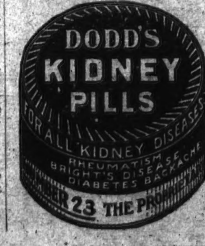

- 1 cup cooked macaroni.
- 1 cup cooked carrots (chopped).
- 1 tablespoon grated onion.
- 1 tablespoon chopped parsley.
- 1 tablespoon chopped fresh red pepper.
- 1 cup chopped ham.
- 1 tablespoon buttered crumbs.
- 1 cup Borden's St. Charles Milk.
- 1 cup water.
- 1 tablespoon butter.
- 1 tablespoon flour.
- 1 teaspoon salt.
- 1 teaspoon pepper.

Cook macaroni in boiling salted water 35 minutes. Make a white sauce of butter, milk, water, salt, paprika. Place a layer of macaroni in a well-greased baking dish. Sprinkle with ham, carrots and seasonings. Repeat until all are used. Pour over all the white sauce. Cover top with bread crumbs and bake in a moderate oven for 40 minutes.

Pigeons Killed By Aeroplane

Flock Passed Through Rapidly Revolving Propeller of Passenger Plane

A flock of pigeons recently flew into one of the propellers of a Montreal passenger aeroplane, which had just left Croydon Aerodrome on a flight to Paris.

Usually birds avoid aeroplanes and the pilot was surprised to see the pigeons fly straight toward the machine and apparently pass through the rapidly revolving propeller of the starboard engine.

The aeroplane suffered no ill effects, but about 80 dead pigeons were picked up just outside the aerodrome.

Baby's Own Tablets Are Effective and Easy to Give

You do not have to coax and threaten to get the little ones to take Baby's Own Tablets. The ease with which they are given, as compared with liquid medicines, will appeal to every mother. None is spilled or wasted; you know just how big a dose has reached the little stomach. As a remedy for the ills of childhood arising from derangements of the stomach and bowels they are most satisfactory.

Mrs. Rose Voyer, Willmar, Minn., says: "I used Baby's Own Tablets in the Canadian Northwest and found them a wonderful medicine for children's troubles, especially indigestion and constipation. I have also given them to my children for simple fever and the restlessness accompanying teething and they always gave relief. I can recommend Baby's Own Tablets to all mothers."

Baby's Own Tablets are sold by medicine dealers, by mail at 25c each a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Muss Maintain Navy

If Great Britain were a continental power she could see her navy go with equanimity, but Great Britain is not England alone. It is South Africa, it is Australia, it is Canada, it is the Pacific. It is the Seven Seas. Take the Union Jack from the masthead of the British navy and it is goodbye to the Commonwealth. The British empire is the British fleet. If we are to preserve the one we must maintain the other.—London Daily Express.

Many children die from the assaults of worms, and the first cause of mother should be to see that their infants are free from these pests. A vermifuge that can be depended on for its safety and its effectiveness is a most valuable remedy for many of the ailments that beset infants, effecting them and endangering their lives.

Has Amazing Possibilities

Wembley Exhibition. A crown of rays of light from the Tower of London, shining with every small electric bulb, was kept lit by a high-frequency generating circuit some distance away. The possibilities thus opened up are enormous, and again reveal how constantly we are on the threshold of new discoveries. Before long it may be an everyday occurrence to draw electrical energy from the atmosphere that envelops the earth, rather than from wires. For the present this is a wireless, safe, and experimentum, the penetrating deeply in that fascinating research with their next advance possibly a lightning aerial. Indeed, a London writer thinks it possible the use of the earth in obtaining electricity for lighting and heating, and possibly cooling, by an aerial on the spot connected with domestic switches. There are indeed many possibilities of that that usual in prophecy.

HOUSE HUNTING IN IRELAND

A couple about to be married were
looking for a cottage, and after a lot
of trouble, found one which pleased
them.
On returning home, they were quiet
for a while, when suddenly the bride-
to-be asked if he had noticed if there
was a "W.C." to the house. He could
not tell and he was decided to write
and ask the landlord.
The landlord did not understand the
term "W.C." and after thinking it
over for some time he came to the
conclusion that it meant "Wesleyan
Chapel," and so he answered the let-
ter as follows:
Dear Sir:—I very much regret the
delay in this matter, but have much
pleasure in informing you that the
"W.C." is situated about five miles
from the house, and is capable of
seating 250 persons. This is very
fortunate for you if you are in the
habit of going regularly, but no doubt
you will be glad to know that a great
number of people take their lunch
with them and make a day of it, while
others who cannot spare the time, go
by car and arrive just in time and
are generally in too great a hurry to
wait. The last time my wife and I
went was six years ago and we had
to stand up all the time.
Hoping this information will inter-
est you, I remain,
Yours very truly,

"I've Never Advertised in Twenty Years"

"Yes, I'll admit times are a bit slow

the tide."

Waiting for their ships to come in
has spelled disaster for all too many
Canadian merchants. Don't think
along the lines of the man above. Ad-
vertise!

PROGRESSIVE MERCHANTS ADVERTISE

Issued by Canadian Weekly Newspapers Association

THE LESS THE LOSS, THE GREATER THE GAIN

The Home Bank matter has been
dealt with by the Government and
some depositors have received the
thirty-five per cent of their deposits.
There are, however, many depositors
whose claims are for the present un-
settled. These with deposits above
\$500 are out of luck, so to speak. Just
why these depositors have been ig-
nored by the ruling of the Honorable
Senators, is as mystifying as it is un-
fair. It is true that provision is be-
ing made for all depositors with over
\$500 on deposit, who will proclaim
themselves paupers, and swear to it.
Unfortunately many will be obliged to
do this; some will be tempted to do
so in order to get back a portion of
their money, but thank goodness the
bulk of Canadians will not sell their
pride for the almighty dollar and these
will be the losers, so far as dollars
are concerned. Better by far that
no settlement had been made with
any depositors than to make a part
settlement that cannot help but add
to the sorrow of those with more
than \$500 on deposit who were de-
frauded of their savings and then de-
nied participation in the thirty-five
per cent settlement. One would nat-
urally suppose that the depositors
with the greatest amounts would be
selected for first consideration if divi-
sion had to be made, because they
are the greatest losers; but no, those
are the ones who have been ignored.
Some settlement, this! It is not sur-
prising that our people are stupefied
at the unfairness of the whole pro-
ceedings. It looks like a case of
"adding insult to injury."—The Cana-
dian Elk.

ALBERTA'S MOTHERLESS AND NEEDY CHILDREN

Amongst the charitable institutions
of Alberta none is more deserving of
the confidence and support of the
public than Woods' Christian Home
at Olds. For ten years this institu-
tion has been giving hospitality and
training to hundreds of Alberta's
motherless and needy children, and
the ever-increasing number of appli-
cations for admission has made it im-
possible for the Home to measure up
to the needs of the province.
This condition of things has led the
board of managers to decide to make
an appeal for funds, sufficient to build
six additional cottages. If this ap-
peal meets with the success it de-
serves it deserves the building will
be started as soon as possible and
each cottage will be built to accom-
modate twenty-five children, which
with the present buildings will enable
the Home to take care of 200 children.
A foster father and mother, chosen be-
cause of their adaptability for the
work, will be put in charge of each
cottage and the policy of the Home
"To keep the children together" will
be strictly adhered to.
Although started as a private in-
stitution by Mr. Wood, the property
has since been turned over to a board
of trustees and incorporated under
the laws of the province of Alberta.
The management is under the super-
vision of an advisory board, which
consists of representatives elected by
the various organizations that give
it financial support. Thus the Home
is a public institution giving hospitali-
ty to children from all parts of the
province and depending on the gen-
erosity of the public for its support.
The Home has the endorsement of
the Legislature of Alberta, the Social
Service League of Canada, the Pres-
byteries of Edmonton, Red Deer, Cal-
gary, Medicine Hat and High River,
the Orange Grand Lodge of Alberta,
as well as many of the most promi-
nent men of the province, such as Hon-
orable Brewster, Hon. Greenfield, Hon.
Chas. Stewart, Bishop H. A. Gray, H.
W. Woods and many others.

In reply to a letter of enquiry, Mr.
K. C. McLeod, Superintendent of De-
pendent and Delinquent Children for
the Province of Alberta, wrote as fol-
lows: "The Woods' Christian Homes at
Olds. This institution is doing very good
work amongst our children. Mr. and
Mrs. Wood are admirably adapted for
the work not only on account of their
years of training in the old country,
but also because of their natural apti-
tude for handling children. They understand
home and home conditions as
they should be. They are keeping a
great many children without charges,
and many more are only paying a
fraction of their cost. Mr. and Mrs.
Wood are very economical in the use
of their funds, and they provide a great
deal of the sustenance of the home off
their little farm. It is too bad they
have not more land and more capital,
as they could make a great institution
of it. I sincerely hope that in some
way he will have the money to ex-
pand and do the big work there is
for such an institution to do. We
will all the children we can in Woods'
Christians Homes for care, and always
feel that we are getting the best of
satisfaction."
Ralph Connor (Rev. C. W. Gordon)
says of it:
"No one with the heart of a man in
him will be indifferent to the appeal
of your work for orphan children. It
is an appeal which has in it all the
elements of pity and compassion that
we feel for those who are unable to
help themselves, and is there any-
thing in the world so halcyon as a
little child, fatherless and motherless,
big."

K.P. SMOKER ENTERTAINMENT

A rather pleasing diversion from
the general order of entertainments
in the Crow's Nest Pass has been
adopted by the Knights of Pythias at
Coleman.
Some time ago it was arranged
that smoker-concerts should be held
on every second Saturday night in
the ballroom of the K.P. hall. These
have been held on several occasions
since and each one is proving an ad-
ditional attraction.
The entertainment on Saturday
night was by far the best yet. A
splendid and varied programme was
carried out, so that very little inter-
est was taken in smoking.
The chair was occupied by Mr.
David Gillespie, and the following
programme was rendered, interspersed
with about a score of choruses
from the collection specially selected
for use at K.P. events.
Song—Mr. J. Hopkins.
Song—Mr. L. Jones.
Comic Song—Mr. W. Lane.
Song—Mr. H. Chamberlain.
Recitation—Mr. Snowden.
Song—Mr. Pete Smith.
Duet—Brothers Lane.
Song—W. Lewis.
Song—Mr. L. Jones.
Song—Mr. A. Phillips.
Comic Song—Mr. J. Muir.
Song—Mr. W. Hopkins.
Violin Solo—Mr. S. White.
Song—Mr. W. Williamson.
Song—Mr. Hibbs.
Duet—Messrs. Phillips and P.
Smith.

Recitation—"Oration of Sam
McGee," by Mr. J. R. Wood.
Fortune Telling by Mr. Joe Atkin-
son, of Hillcrest.
Song—"Our Order," by Mr. J. Fish-
er, Hillcrest.
God Save The King.
The programme could not be com-
plete without an intermission in
which to allow the "K.P." kitchen
troupe an opportunity to show their
good judgment of the desires of the
many inner men, and at the allotted
hour, 10:15, the call went out for the
kitchen gang to report for duty.
Messrs. Rushton, Knowles and Hillis
appeared in full attire and promised
to supply all within fifteen minutes.
The chief item on the menu was "hot
dogs," and as these were being served
"The Dead March" was pleasingly
rendered by the pianist and the Roll
Call found all missing but Jack
Wood's poodle.

The programme continued till mid-
night, when "God Save The King"
brought the evening to a close.
The next entertainment takes place
on Saturday night of next week, and
is open to anyone who wishes to as-
sist in the evening's programme or
who loves the good old choruses and
heavy sing-songs. Instrumentalists
and vocalists give their services vol-
untarily and we venture to state that
with the amount of material in that
line to be found in Coleman one is
always assured of music of the high-
est order.

These entertainments provide an
ideal means for those who have tired
of the day's toil and desire a pleasing
and profitable pastime.

Hallowe'en passed off rather quiet-
ly in Blairmore, most of the young-
sters confining their efforts to harm-
less pranks. Some grownups, how-
ever, who should know better, resorted
to the wanton destruction of prop-
erty, even going so far as to break
windows and tear away a fire-escape
stairway from the opera house. A
reward is being offered for infor-
mation that will lead to the convic-
tion of parties connected with this
trick and if caught, no doubt they will
be given to understand that they are
not permitted to destroy or damage
properties.

friendless.
The campaign has been set for the
week ending the 22nd of November,
which is the 10th anniversary of the
Home. "Wherever collectors can be
secured, a canvass will be made on
or near the above date. Those who
fail to see the collectors and yet are
interested in doing their share in
caring for Alberta's needy children
can send their subscriptions direct to
Woods' Christian Home at Olds, Al-
berta.
Invest a few dollars in a little
child in the Fall. It will pay, and pay
big."

THANKSGIVING SERVICES AT
BELLEVUE UNITED CHURCH

Bells are being peated, announcing the annual memorial and Thanksgiving services to be held in connection with the Bellevue United Church.

Services will be held as follows on Sunday, November 8th: Sunday School at 2:30 p.m., Memorial Service for those who fell in the Great War at 7:30 p.m.

At this latter service, the pastor, Rev. J. W. Oliver, will be assisted by Miss Olive Hume and local war veterans. The choir, under the able leadership of Mr. Watts Goodwin, will render special music.

On the Monday evening following, a chicken supper will be served in

the gymnasium from 5 to 7 o'clock by the ladies of the church, for which a charge of 50 cents per plate will be made, and at 8 o'clock a public meeting will be held, at which the Rev. Dr. A. S. Tuttle, M.A., D.D., principal of Alberta College, South Edmonton, will be the principal speaker. Dr. Tuttle is not a stranger to Pass audiences and a record crowd is expected to hear his message on this occasion. Dr. Tuttle will deal with the subject: "A Religious View of Evolution."

"Mirandy, why yo' all name dat chile Optum?"

"Because dey say optum comes from a wild poppy and dis chile's poppy sho' am wild!"

The following attractions are coming to the local Orpheum Theatre: "The Man They Couldn't Hang," on Wednesday and Thursday, November 18th and 19th; and at Coleman of November 20th and 21st. "The Ten Commandments," at the Orpheum Theatre on Friday, Saturday and Monday, the 27th, 28th and 30th, and at Coleman on December 4th and 5th. These are big attractions.

SPURIOUS COINS IN
CIRCULATION

The attention of the public is drawn to the circulation of counterfeit twenty-five-cent pieces, Canadian. Particulars of them may be had at the local bank and any person receiving cash should turn same in to the police at once.

HILLCREST HAPPENINGS

Ed. Howcroft was a weekend visitor from Beaver Mines.

Rev. C. S. Pinder is again doing duty after a recent spell of illness.

The First Aid class was held at the school on Monday afternoon, Ed. Royle acting as instructor.

Ed. Bayle has gone into the duck business, having purchased a couple of ducks with intention of starting a ranch.

Jack Madison was a week-end visitor, coming in from Wayne to see his family. He left again on Sunday night's train.

The regular convention of Turtle Mountain Lodge No. 15, Knights of Pythias, took place in the Castle Hall on Tuesday night. All preparations are set for the second series of whist drives on Friday night.

Miss Hetherington, Alberta organizer for the C.G.I.T., has promised to give an address at Hillcrest United church on November the 22nd. It is to be hoped that as many as can will attend, as her address is bound to be interesting.

The Musketeers of Blairmore, J. O'Neill, W. J. Bartlett and Rev. Father Cosman, were noticed prowling around on Halloween night, for what purpose is best known to themselves. A day or so may tell if anything is missed.

The usual pranks were played by the younger end of the town on Halloween night, which are usually enjoyed by all; but it seems that several, who are old enough to know better, got into the school through a window and scattered books and papers of the high school students around the rooms. It is hoped the members of the school board will take the matter up and have a thorough investigation. Kiddies' pranks are all right, but wanton destruction should be discouraged.

A pleasant time took place at the residence of Mr. R. Letcher on Saturday night, the occasion being a Halloween party. In addition to the members of the family, the invited guests included: Miss Allie Greaner, Misses Agnes and Maggie Truba, Misses Lizzie and Doris Bamforth, Misses Ella and Fern Madison, Miss Connie Robinson, Miss Nellie Royle, Misses Jean and Peggy Stobbs, Miss Jennie Makin, Masters Richard Price, Bob Howcroft, Gordon Madison, John Madison, Mrs. A. Hood, Mrs. J. Madison, Miss Florence Makin and Miss Helen Carpenter. The party broke up at midnight, after a whale of a time. Three cheers for Letchers!

COWLEY HAPPENINGS

A travelling orchestra held a dance here on Tuesday night.

Mrs. James Leigh held a very enjoyable Halloween party on Friday night for the small children.

Miss Gladys Baines, of the Royal Bank staff, Pincher Creek, was a guest of Mrs. Lionel Peel over the week end.

The farmers were a bit hopeful on the strength of getting two days' threshing weather the past week, including Sunday.

A lively time was spent at the school, when the staff put on a Halloween party for the youngsters on Halloween night.

Another very successful whist drive was put on here by the Women's Institute on Wednesday evening. There were fifteen tables at play. The prize winners were as follows: Ladies' first, Brad Tustian; ladies' second, Mrs. Christie; gent's first, Fred Snyder; gent's second, H. D. McMillan. The boobies were awarded to Miss Marion Smith and David Chenier. Around fourteen dollars was realized. Luncheon was served by the members of the Institute and a lively dance was indulged in for a couple of hours. The next regular whist drive will be held on Wednesday evening, November 11th, in the Masonic hall.

WORLD HAPPENINGS
BRIEFLY TOLD

The largest map in the world is being made at San Francisco. It is to be 500 feet long and 15 feet wide.

The "Lakeside" school migration for twenty-five years is reported in the Copper River country, Alaska.

Britain's claim of 55 million pounds from humanity on account of war debts has been scaled down to 10 million pounds.

The New York Times estimates the loss in the textile industry and three railroads by the strike of the anthracite miners, which began September 1, at \$165,000,000.

Manitoba's Government-owned telephone system is having a successful year. Total earnings for September were \$17,000.00, or nearly \$100 greater than August.

Foot and mouth disease among cattle is spreading in Lancashire, Eng., and two new outbreaks were reported recently. A large number of affected cattle have been destroyed.

The bylaw for the purchase of the Winnipeg Electric Railway for \$15,127,000 will not be submitted to the ratepayers at the civic election in November.

A public park is to be created by the territory of Hawaii at Kealahou, on the Kona coast. The park will include the monument of Captain James Cook, famous English navigator and explorer, and the 5,682 square feet of British territory which surrounds it.

Thirteen years ago 125,000 tons of traffic passed by the "Elephant and Castle" London, every year. Today the amount has increased to 195,000 tons. Traffic at Hyde Park Corner has grown from 39,000 tons in 1812 to 140,000.

A Cairo despatch to the Daily Mail says it is officially announced that Tut-Ankh-Amen's tomb was re-opened Oct. 12 in the presence of Egyptian officials. The lid of the sarcophagus was lifted, revealing another sarcophagus on which lay a thin linen cloth and several bouquets of flowers in a good state of preservation.

Relics Of Ancient Mayas

Remains of Explorer Are Now in British Museum

Relics of the ancient Maya civilization, to the number of about 200, which were discovered by the explorer, Mr. Mitchell-Hedges, the explorer in the hitherto unknown interior of British Honduras, are now in the British Museum in London.

Most of them are fragmentary examples of pottery. Among them is a miniature head of a smiling man which might have been modelled to-day, so strikingly "modern" is its style.

It appears from the character of his finds, however, that Mr. Mitchell-Hedges may well succeed in bringing to light data about the Mayas' lost civilization which may enable us at least to solve a great mystery, for the beginnings of the Mayas are rooted in mystery.

Among the finds he has brought to the museum is a potted red which suggests that printing was not unknown to the Mayas, and it is certain that they produced pottery with moulds.

Factory Turns Out Speeches

Pennsylvania Firm Does Three Million Last Year

A writer in a United States paper has received a circular from a Pennsylvania factory for the manufacture and sale of after-dinner and other speeches. Before receiving this he had no idea of the magnitude of the industry. The management announces it sold three million speeches in 1924 and confidently expects to double the output in 1926. The thought is appalling.

We hear much of free speech, but the company claims to have sold these productions at prices ranging from 25 cents to \$40 each. Blocks of five can be had for 42, of ten for \$3, and twenty for \$2. As to their quality: "The data is accurate, the English clear, forceful and oratorical." What more could be wanted? If a set speech is not desired choice may be had of three hundred "snappy" speeches, as many "toasts" for all occasions plus one hundred ideas for entertainment committees. Twenty-five short prayers can also be had for 50 cents, to relieve anyone embarrassed by the call to "make a blessing." The longest felt want filled is "one hundred ways to introduce a speaker."

Frailty Of Men Of Strength

It Is Found That the Strongest Frequently Die At Early Age

Twenty-five or thirty years ago Eugene Sandow was not only the strongest man in the world, but he was unquestionably the finest specimen of physical manhood of his day and generation. Every boy who looked upon his much-photographed development longed to be like him. Now, at the age of 53, he is dead, the effects of an automobile accident some years ago are said to have hastened his end.

One week ago Sigmond Breitbart, again, "the strongest man in the world," who was touring Canada a few months ago, died quite suddenly. There was also John Marx, who was Sandow's immediate successor. He tore horseshoes in two with his naked hands, smashed chains with a blow of his fist, stood on a high tensile and with a harness on his shoulders lifted an elephant off the ground. He died of consumption in his early forties.

The bulging muscle man is generally the object of envy and admiration by other men. The envy is sometimes unwarranted. The so-called strong man is often a frail reed, and if he is not frequently becomes one because he neglects taking the care of himself that a less powerful man would do.

Phone Test Is Successful

Alberta Now Linked With United States and Eastern Canada

Imaginative a direct telephone service that will link Alberta with many points in Canada and with every state in the American Union, Lieutenant Governor R. G. Brett, in the office of Hon. V. W. Smith, minister of railways and telephones, engaged in telephone conversations with the secretary of the state of Montana, at Colorado and of Arizona at the state capitals of Helena, Denver and Phoenix, exchanging greetings with the people across the line.

Premier Greenfield and other government officials were present during the test, which was a complete success as far as these three states were concerned. The test is originally planned also includes direct connection with Ottawa and Vancouver, but owing to a short circuit six miles south of Westsaskatoon, where the wires became entangled with the telephone lines, the latter calls had to be postponed.

Cold On Planet Mars

Scientists Believe That It Registers 100 Degrees Below Zero At Frequent Intervals

Mars may or may not be inhabited, but it is so it is apparently enjoying anything but a warm and salubrious climate. The use of an extraordinary delicate instrument has been invented for finding out such distant facts. W. W. Coblentz, of the bureau of standards, Washington, has concluded that the mean annual temperature of the surface of Mars is in the neighborhood of 30 degrees Fahrenheit, comparing with the earth's 58 degrees.

The observations indicate that 100 degrees below zero can be encountered quite frequently on Mars.

Most of Dr. Coblentz's work on the problem was done last August, when Mars came much closer to the earth than it does usually.

Must Have Just Settlement

Force Will Never Settle Chinese Issue Says N. W. Rowell

Addressing the Toronto Canadian Club at luncheon on the subject, "China and the Foreign Powers," Hon. N. W. Rowell, K.C., who has just returned from a tour of the Orient, declared that force will not settle the issue between China and the powers. A just settlement, he declared, while giving China autonomy in fixing the import tariffs and control over the rights of foreigners indicted for criminal offences, must at the same time protect foreign trade interests in the country.

"The boycott in China against foreign goods, especially British goods," he said, "has been practically 100 per cent effective, with the result that British trade there is at a standstill."

The first potatoes.

The potato plant is a native of Chili and Peru, South America. It is generally considered that potatoes were first brought to England from Santa Fe in tropical America by Sir John Hawkins in 1565. Others ascribe their introduction to Sir Francis Drake in 1586. Their first culture in Ireland is referred to by Sir Walter Raleigh, who had large estates in County Cork.

Motor Car Maintenance

Are Now Half a Million Pleasure Cars In the Dominion

Advances made by the automobile industry since 1921 were dealt with by G. D. Finlayson, superintendent of insurance for the Dominion of Canada, in an address to the fifth annual convention of the Ontario Fire and Casualty Insurance Agents Association, at Toronto. The industry had increased by leaps and bounds within the past four years, and offered a field for insurance companies, according to Mr. Finlayson.

"The automobile has revolutionized our economy," stated Mr. Finlayson. "At the present time it is safe to say that there are 500,000 pleasure automobiles in Canada, and if we estimate the cost of maintenance at \$25 a month we would find \$150,000,000 is annually spent in this manner, or one-half of what the national debt was ten years ago."

The Proof of the Pudding

Big Wheat Yields Reported in Many Districts

It is an old saying that the proof of the pudding is in the eating. By the same logic, the proof of the bumper crop which Canada offers to farm scientists in the autumn when farmers are already in the country are seeing for their labor and investment. While the statistics for the Dominion as a whole are impressive, they do not carry the same personal conviction as the samples of wheat have been done by individual farmers. Representative few such examples as published in the newspapers in the districts in which the crops have been harvested. They tell their own story:

A big yield of wheat is reported from the farm of E. Rasmussen, Crooked Lake, Alberta. The crop averaged 45 bushels in the acre from a field of 45 acres. The wheat was the Red Bob variety—Edmonton, Alberta, Journal.

G. W. Johnstone, of Deloraine, Manitoba, thrashed a crop of wheat this season that averaged about 45 bushels in the acre. The usual averages in this district are from 30 to 35 bushels per acre.—Prairie, Manitoba, Graphic.

The estimated average of wheat yields in the Aberdeen, Sask. district show records according to information received here. On some farms wheat has run from 40 to 45 bushels per acre, and on others, 45 to 50. Oats have run up to 110 bushels in the acre, averaging 30 bushels per acre for the district around—Saskatoon Star.

Drastic Reform in Turkey

Mystic of Islam Are Removed by Government Decree

One of the most drastic and far-reaching reforms in Turkish life has gone into effect almost unnoted by the outside world.

The new government's recent decree abolishing all monasteries in the republic and permitting only secular religion has thrown out into the world some 20,000 Turkish monks and dervishes—mystics of Islam, who are to be employed by education or equipment for any other service in life.

The summary decree at the same time removed from Turkish life one of its strangest and weirdest classes, the dervishes.

These dervishes are divided into three categories—"howling," "whirling" and "singing." They live largely on the ignorance and superstition of the Turkish peasants, who believe them to be invested with divine power.

British Organization Aims to Bring About Golden Age of Health

The London Daily Express says three former prime ministers of Great Britain, Lord Balfour and Ramsay MacDonald, with a number of prominent physicians and hygienists, have formed a remarkable society aiming to bring about "a golden age of health" in England. This organization, which is to be formally inaugurated early in December, will be called the "New Health Society."

Its primary object will be the prevention of disease.

These duties, according to the Daily Express, believe a "new race can be created by a new way of life. A nation-wide propaganda campaign is to be launched when the society is inaugurated.

Remove Tattoo Marks

Frenchman Claims to Have Discovered Formula For This Purpose

There is hope for the youth and maiden of yester year—sweethearts then, but strangers now. The little tattooed heart, pierced with a cupid's dart, picked on arms as a sign of young affection, can easily be removed.

The secret of the process for erasing the ink lies in the use of a special kind of ink, the "ink" of the Frenchman, which is made from a mixture of chemicals, and is applied to the tattooed skin.

After long questioning Antoine modestly admitted that he had discovered a formula for removing the ink, which scientists had vainly been searching for. He was induced to part with the recipe, which is as follows:

"Pour upon the tattooed part a solution of potassium permanganate. Then, with needles similar to those used in tattooing, inject the acid into the skin, making the needle prick as close as possible to each other. Rub the part treated lightly with a crayon of nitrate of silver."

Antoine declared that the wound would heal in a sort of black thick crust which would disappear after two or three weeks, taking along with it the tattooed design. He said the entire operation was painless.

Canada's Best Cook

Toronto Woman Took Six First Prizes At National Exhibition

Who is Canada's best cook? According to the awards in this year's cooking contests at Toronto's National Exhibition, she is Mrs. J. Hamilton, 537 Windermere Avenue, Toronto.

Mrs. Hamilton's wins are as follows: Six first prizes for brown bread, milk buns, canned strawberries, canned raspberries, strawberry jam, orange marmalade. Her white bread came second and her cookies third.

Mrs. Hamilton's wins are a triumph for the farm woman's training, for though a resident of Toronto for 25 years, it was on her farm home near Owen Sound, that as Margaret Merchant, she learned how to cook.

A Wembley Comedy

One Exhibit Made Very Realistic As Heavy Cost

One of the hundred thousand things to see at Wembley is an exhibit representing a kitchen, in which cheese, oatmeal, bread, sugar and so on, are lying about with no wrapping. Dummy rats, mice and other small beasts are shown eating up the good things, and it is explained that this proves how important it is that food should be made up in properly packed parcels before being exposed for sale.

But there are real rats and mice at Wembley, and one night they discovered that this unwrapped food did what the dummy rats were pretending to do—eat it all up, so that in the morning there was not a scrap left. They drove home the moral all right, but at rather too heavy a cost for repetition every day.

Seventy-Year-Old English Woman Climbs Swiss Mountain

DAREE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.

"DAREE, SON OF KAZAN," a Vignette Picture, With Wolf, the War Dog, is an Adaptation of This Story.

SYNOPSIS

Nepeese, daughter of Pierrot, the trapper, carried Barce, the young wolf-dog, from her father's cabin into the woods. She was fearful of the return of McTaggart, the factor, whom, a few minutes before, she had pushed into a twenty-foot chasm when he made her welcome advances to her. She met her father, who had learned that McTaggart had killed Nepeese, the result of a bite on the hand by Barce when the factor found the dog in one of his traps.

CHAPTER XV.—Continued

It was not like other ruins Barce had known. It was an foundation sweeping down out of the blackness of the sky. Within a few minutes the interior of the Indian shelter was a shambler-half an hour of that torrential down-pour, and Nepeese was soaked to the skin. The water ran

"There was no smoke coming from the chimney. The door was closed. Pierrot and Bush McTaggart were gone."

With her wet clothes clinging to her tightly, she was like a slip shadow as she crossed the snowy open and buried herself among the forest trees. Nepeese looked down and saw Barce. He was standing calm and unalarmed, with freedom on all sides of him. Yet he did not run. He was

NERVOUS BREAK-DOWN

Pains in Back and Legs Relieved by Lydia E. Pinkham's Vegetable Compound

Ford, Ontario. "I had a nervous break-down, as it is called, with severe pains in my back and legs, and with fainting spells which left me very weak. I was nervous and could not sleep nor eat, as I should not spend much time in bed. I was in this state, more or less, for over two years before Lydia E. Pinkham's Vegetable Compound was recommended to me by my neighbor. Before I had taken five doses I was sitting up in bed, and when the first bottle was taken I was out of bed and able to walk around the house. During my absence I had been obliged to get someone to look after my home for me, but thanks to Lydia E. Pinkham's Vegetable Compound, and I certainly recommend these medicines to any one who is not enjoying good health. I am quite willing for you to use these facts as a testimonial."—Mrs. J. S. Sargent, 130 J. Jackson Avenue, Ford, Ontario.

Nervousness, irritability, painful times, run-down feelings and weakness are symptoms to be noted. Women suffering from these troubles, who they should have, should use Lydia E. Pinkham's Vegetable Compound as a medicine.

of the pool, and watched her. Sometimes she was just under him, floating silently, her hair forming a cloud dark-er than the water about her; again she was cutting over the surface almost as swiftly as the plover he had seen-and then with a sudden plunge she would disappear, and Barce's heart would quicken its pulse as he waited for her. Once she was gone a long time. He whined. He knew she was not like the water and the drier, and he was filled with an immense relief when she came up.

So their first night passed—storm, the cool, deep pool, the big fire; and later, when the Willow's clothes and the blanket had dried, a robe was draped. At dawn they returned to the cabin. It was a cautious approach. There was no smoke coming from the chimney. The door was closed. Pierrot and Bush McTaggart were gone.

CHAPTER XVI

It was the beginning of August—the Flying-up Moon—when Pierrot returned from Lac Bain, and in three days more it would be the Willow's seventeenth birthday. He brought back with him many things for Nepeese: ribbons for her hair, red shoes, which she wore at times like the two Englishwomen at Nelson House, and chief glory of all, some wonderful red cloth for a dress. In the three winters she had spent at the Mission, these women had made much of Nepeese. They had taught her to sew as well as to spell and read and pray, and at times there came to the Willow a compelling desire to do as they did.

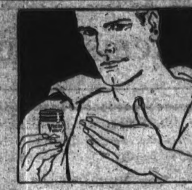

So for three days Nepeese worked hard on her new dress and on her birthday she stood before Pierrot in a fashion that took his breath away. She had piled her hair in great glowing masses and down the crown of her head, as Yvonne, the younger of the Englishwomen, had taught her, and in the rich jet of it had half buried a vivid sprig of the crimson fire-flower.

Under this, and the glow in her eyes, and the red mark of her lips and cheeks came the wonderful red dress, fitted to the slim and sinuous beauty of her form—as the style had been two winters ago at Nelson House. And under the dress, which reached just below the knees, Nepeese had gathered the proper length, or else her material had run out—came the coup de maître of her loveliest red stockings and the wonderful shoes with high heels. She was a vision before which the gods of the forest might have had their hearts sore beating. Pierrot turned her round and round without a word but smiling; but when she left him, followed by Barce—hanging a little in the lightness of her dress—the smile faded from his face, leaving it cold and staring.

There was a change in Pierrot. During the three days of her dress-making, Nepeese had been quite excited to notes. This change, and Pierrot had tried to keep it from her. He had been away ten days on the trip to Lac Bain, and he brought back to Nepeese the joyous news that Xatu McTaggart was very sick with pneumonia—the blood-poison—news that made the Willow clap her hands and laugh happily. But he knew that the Factor would get well, and that he would come again to their cabin on the Gray Loon. And when best time he could.

It was when he was thinking of this that he saw the smoke coming from the chimney. The door was closed. Pierrot and Bush McTaggart were gone.

Well-Merited Success

that his face grew cold and hard, and his eyes burned. And he was thinking of it on this birthday, and even as he lay down to sleep he was thinking of it. And she should tell her the whole truth so that she might have understood fully and completely. No, it should not be that. His son beat with a great and gentle love, Mr. Pierrot the Quano, who, though he had been a soldier, and had no share in the black forbiddings that had come to spoil his life.

On this day there came up from the south, McDonald, the government surveyor. He was gray and thin, and with a great, free laugh and a clean heart. Two days he remained with Pierrot. He told Nepeese of his daughters at home, of their mother, whom he worshipped more than anything else in the earth—and before he went on in the quest of the last timber-line of Hanksian place, he took pictures of Willow as he had first seen her on her birthday: her hair piled in glossy coils and masses, her red dress, the high-heeled shoes. He carried the negatives on with him, providing Pierrot that he would get a picture back in some way. These late works in his strange and apparently innocent way as it sprang his web of tragedy.

Sensational Report Started in China

Switching of Picture-Titles Responsible For War-Time Story

The sensational report that Germany was holding down the bodies of her dead soldiers of the great war to wait the day for fertilizer started in China, Brig. Gen. J. Y. Charteris, chief of the British Intelligence Unit, and author of the report, said in a general revealing the origin of the story.

General Charteris said that while he was in China during the war he switched the titles on two pictures taken from dead German soldiers: one captioned "Cadever" showing a traitor of being taken to the rear to fertilizer factories, the other depicting a train taking dead German soldiers to the rear for burial. The pictures were sent to Chinese newspapers with the titles reversed. Six weeks later an English magazine published a letter from a Chinese reader revealing the story of the "horrible boiling down of German soldiers."

The story swept over the continent and eventually became a subject for debate in the House of Commons.

King George Severe In Public Matters

But Easy Going In Private and Personal Affairs

Some of the America's "Indiscretions," about which too much fuss has been made, have at least had the advantage of bringing out certain aspects of King George's character and personality, which, perhaps, were not sufficiently known to the man in the street. One of these is the King's severe punctiliousness in everything relating to the public service, as contrasted with his easy-going good nature in all private and personal affairs. A blundering royal servant may count on the mildest and most good humored rebukes, while a minister or state official who offends stands a good chance of a smart rap over the knuckles from the "highest quarter." With King Edward—keen statesman as he was—it was, oddly enough, the other way about.—London Mail.

A WOMAN'S WORK IS NEVER DONE

No Wonder Health Gives Out and She Becomes Weak and Despondent

It is literally true concerning women in the home that their work is never done. She starts with housework when she rises in the morning and is kept busy up to the time she retires at night. The work must be done whether she is feeling well or not. It is the nature of the work that it is never done. She becomes breathless at slight exertion, she is exhausted after she walks upstairs, her head aches and dizzy spells become frequent, and life seems a burden. Much of this trouble is due to the fact that her blood has become thin and watery, and to regain her good health she must take a reliable blood-cleansing tonic such as Dr. Williams' Pink Pills.

The great value of this tonic medicine is shown by the statement of Mrs. Mary Nolan, Linlath, Sask., who says: "When I began using Dr. Williams' Pink Pills I was a physical wreck. It was with great difficulty that I could do light housework. I suffered from headaches, my heart would beat violently at the least exertion, and I always felt tired and depressed. I did not sleep well at night, and I had no appetite; my limbs were as well as in a daze. It was at this stage that a neighbor advised me to take Dr. Williams' Pink Pills. I had used the pills for some weeks before I began to feel their benefit, and this encouraged me to continue taking them for several months, when I was again as strong as ever."

I have satisfaction in saying that these pills are a remarkable blood purifier and strength renewer, and I shall ever be grateful for what they did for me."

You can get these pills from your druggist, or by mail from the nearest box from The Dr. Williams' Medicine Co., Brockville, Ont.

Stop and Think!

Canada and the United States lose \$500,000,000 per year in fire waste. Every day there are:

One hospital fire.
Three printing plant fires.
Four warehouse fires.
Five church fires.
Six school fires.
Six departmental store fires.
Eight public garage fires.
Fifteen hotel fires.
Three hundred and fifty-nine dwelling fires.
Fire insurance saves nothing—it merely distributes the loss.
Fire protection saves something—at a high cost of upkeep.
Fire prevention saves all—at little or no cost.

Elsewhere in this issue will be found the advertisement of the Island Dulse Company, of St. John, New Brunswick. Dulse has proven to be a preventative of and cure for goitre.

A whist drive and social will be held in the Lodge Hall on Wednesday evening, November 11th, by the members of Crowview Rebekah Lodge. Good prices and good music. Everybody welcome.

Bellevue Fish and Game Protective Association will hold their first annual banquet in the Bellevue Inn on the evening of Wednesday, November 18th, at 7.15. At this meeting the various prizes offered during the 1925 season will be awarded.

W. L. Evans, of the Blairmore Exchange, has moved his stock of new and second-hand furniture, etc., into his new premises, formerly occupied by the Sun Cafe. The premises vacated by Mr. Evans are being fitted up as a millinery parlor for Mrs. Stephenson.

Miss Lena Fraser, a first-year Grade IX student of the local high school, has received notification from the provincial secretary of the G.W.V.A., that her entry in the competition for essays on the subject: "The Flinders Poppy," has been awarded a prize. Heartly congratulations have been extended by her fellow students.

In order to secure a suitable hotel, the town council of Staveland has offered terms of a maximum assessment of 32½ per cent of the actual value of the property for a period of four years and to supply the site for the new building free of charge. The proposition may first have to be submitted to the ratepayers for ratification.

IN THE SUPREME COURT OF ALBERTA IN BANKRUPTCY

IN THE MATTER OF:
The Bankruptcy of H. NISSEN and A. FRACK, carrying on business under the firm name of "Star Bakery," at Blairmore, in the Province of Alberta.

NOTICE
TO: H. Nissen,
Blairmore, Alta.

TAKE NOTICE that a Bankruptcy Petition has been presented against you in this Court by J. A. Frack, of the Woods Milling Company Limited, Calgary, Alberta; and that the court has ordered that the sending of a copy of the Petition by registered post, addressed to you at Blairmore, Alberta; addressed to you care of A. Frack at Blairmore, Alberta; addressed to you care of Star Bakery, Blairmore, Alberta; and the publication of this notice in the Blairmore Enterprise, shall be deemed to be service of the Petition upon you.

AND FURTHER TAKE NOTICE that the said Petition will be heard by this Court on the 24th day of November, A.D. 1926, at 10 o'clock in the forenoon, at the Court House, Calgary, Alberta, on which date you are required to appear, and if you do not appear, the Court may adjudge you bankrupt and may make a Receiver Order against you in your absence, on such proof of the statements in the Petition as the court shall think sufficient.

The Petition can be inspected by you on application at my office, DATED this 4th day of November, A.D. 1926, at the City of Calgary in the Province of Alberta.

LAURENCE J. CLARKE,
Registrar in Bankruptcy.

Even if a loaded truck hasn't the right of way, don't knock it off the road with a light car.

In Africa they rub noses instead of shaking hands. And that is becoming the custom at our dances.

A. E. May, of Edmonton, provincial manager for the Oddfellows' Relief Association, is in the district this week.

Senator Sir James A. Loughheed, leader of the Conservatives in the Senate of Canada, died at Ottawa on Monday morning, following several days' illness.

W. F. Carroll, of Sydney, Nova Scotia, has been appointed justice of the peace of the supreme court of that province. Mr. Carroll was for many years a barrister-at-law at St. John's, Newfoundland.

A paper announces that a man with a wooden leg will for a wager walk around the world, for which he is allowed twenty years. We have known of some parties with pin heads cruising around this world who should be given a like term.

Sheriff Young, of Lethbridge, one of the pioneers of Alberta, died suddenly at his Lethbridge home last week. Sheriff Young came to Alberta in the early eighties and was for some time driver of a stage between Calgary and Edmonton.

Mr. J. E. Upton has taken over the store until lately occupied by Mr. Donaldson, at Coleman, and will open up a branch of his tailoring business here next week. His new store is directly opposite the Canadian Bank of Commerce building.

The dance held in the Lodge Hall on Saturday night last was a decided success. Mason's orchestra, which supplied the music, was peppy all the way through. Streamers and balloons were in use and these made a pretty effect. Mason will probably supply the music every Saturday night.

Thank goodness, we live in God's country! Up in Peace River a few days ago the people were harboring from a fourteen-below-zero atmosphere outside, while down here we were basking in the sun when the thermometer only registered eleven degrees below zero for the last lap of October.

The women's auxiliary of St. Luke's church will hold their first sale of home cooking, candies and flowers on the afternoon of Thursday, December 10th, in the Lodge Hall. Tea will be served from 3 to 6 p.m. In this connection, a musical programme will be rendered in the evening, 8 o'clock by the pupils of Miss McKill.

At the K.P. whist drive on Friday night last, Miss Janet Nicol was declared winner of the first prize for ladies—a set of three "crush" glasses. Five other prizes were awarded for whist. The prizes for the novelty dance were won by Mr. H. P. Thomson and Mrs. Thomas Smith. Twenty-four tables of whist were operated. After luncheon, dancing was indulged in until 2 a.m., Mason's orchestra supplying music.

The local chapter of the Order of Eastern Star, were honored on Thursday evening, October 29th, by the presence of their worthy grand mistress, Mrs. Ella Beaulieu, of Champlain, who paid the lodge an official visit on that occasion. After a most inspiring meeting, a sumptuous banquet was put on and enjoyed by all present. The members of Minerva Chapter, Coleman, attended in a body and several visitors were present from other outside points.

Alberta's new lieutenant-governor is Dr. William Egbert, of Calgary, whose appointment to the position was made the past week. The new governor took the oath of office on Thursday last. Dr. Egbert succeeds Dr. R. G. Brett, who has been governor for the past ten years. He is a resident of Calgary of many years' standing.

The fourth annual general meeting of the shareholders of the Blairmore Arena, Limited, will be held tomorrow night, the 6th of November, in the drawing room of the Cosmopolitan hotel. At this meeting the election of directors to take the place of the retiring directors will take place, and the financial statements and auditor's report for the past year will be submitted.

The Hanna Herald last week published a special Kiwanis-Teachers' Convention number, which is indeed a credit to the town of Hanna, Alberta, and its able editor and addresser, Mr. and Mrs. H. G. McCrea. The front page of the issue carries a splendid picture of the Rev. John Peake, of Hanna, and P. Stacey McCall, principal of Alberta College, North Edmonton, and past district governor of the Kiwanis Club in Canada, taken in front of the old Fort Garry gate in Winnipeg. Mr. McCall was for a time pastor of the Methodist church at Frank in the good old days when Frank held a position envied by many other towns in this district.
